NUMBER 22

127 MEN HAVE NOW ENLISTED HERE; ELECTRIC LIGHT PLANT IS PROPOSED

NEGOTIATIONS FOR ALL-NIGHT LIGHTING PLANT

Necessary business in connection with the installation of an electric light plant in Wainwright is now occupying the attention of council and at last night's meeting a resolution was passed authorizing H. Y. Pawling to call a special meeting of council to further consider the matter in connection with the franchise. The proposition as talked of at the present time is that which will call for the installation of a plant that will be capable of giving this town an all-night lighting service.

T. M. Weeks of Vegreville, who is operating the Vegreville plant is the man with whom negotiations are being made, and from enquiries made, his plant is giving Vegreville very satisfactory service. The special meeting of council will be called as soon as all details have been submitted in connection with the franchise.

POPULAR PLAY TO BE PRESENTED IN ELITE THEATRE

The play "Ici On Parle Français" will be presented in the Elite theatre, Friday March 17th. The play will be preceded by a short program of music, moving pictures etc., which will furnish a splendid evening's entertainment. The doors will be open at 7:30 p.m., and the program will begin at 8 p.m. The price of admission will be 50 cents for adults and 25 cents for children.

RETURNED WAR HEROES TELL ACTUAL EXPERIENCES OF EVENTS IN FRANCE

SPEAKS ON WAR

PTE. PEAT, a man who made the sacrifice and who visited Wainwright on Friday in the interests of the Red Cross Society.

SPECIAL THEATRE FEATURE

Avery Hopwood's comedy-drama, "Judy Forget," which ran for four months on Broadway, has been filmed in five acts by the Universal Film Mfg. Co., with Marie Cahill in the principal role. It will be shown at the Elite theatre Thursday evening of this week.

WOMEN'S INSTITUTE MEETING

The monthly meeting of the local branch of the Women's Institute will be held in the council chambers of the Town Hall, on Saturday, March 11th, at 2 o'clock in the afternoon. The meeting will be particularly interesting, as several of our members attended the provincial convention in Edmonton the preceding week. All ladies cordially invited to attend.

HOLD ENJOYABLE DANCE

One of the most enjoyable dances ever given in the L. O. L. hall, Gilt Edge, took place last Friday when Mr. and Mrs. J. DeNoucourt gave their wedding dance. About 100 people attended, the music was furnished by Reilly Bros. Four quick draughts the dance to a close when three cheers were given for the host and hostess.

BOYER IS DEFEATED IN CURLING FINALS FOR BREWERY CUP

In a "neck and neck" game at the local rink on Tuesday evening, Fieldhouse succeeded in defeating Boyer by a score of 12-10, Fieldhouse thus winning the treasured "Brewery" cup. The defeated rink lies the cause of its defeat to the fact that its skip was off-color; also to the fact that the opposing rink was strengthened by the addition of the renowned Jack Forsyth, assuming control on third man. J. W. Brown, El. Burton, J. Forsyth and H. V. Fieldhouse made up the winning rink. The defeated rink was composed of F. Gordon, E. Stanley, W. K. Bothwell and M. A. Boyer. Mr. O'Neill, clerk at the local depot, returned to Wainwright on Saturday after visiting relatives and friends across the border.

Pte. Peat and Wells, returned war heroes, who visited Wainwright on Friday evening last under the auspices of the Red Cross Society, attracted a capacity audience and the war story of actual experience as told by Pte. Peat was one that will remain in the memory of all hearers for a long time. The following is the address of welcome given by Rev. H. Assiter: Pte. Peat and Pte. Wells.

In the name of the Wainwright branch of the Returned Soldiers' bureau, I welcome you to our town. Your presence upon this platform speaks most eloquently of your British loyalty and patriotism.

Animated by a true sense of your responsibility as citizens of the empire. You heard the call which she sounded, and you nobly responded in the name of honor right and duty.

You cared not what dangers lay before you, nor what sacrifices you would be called upon to make, but were prepared to do your bit and strike a blow in defence of our king and country against the despotism of our common foe.

We owe to you a debt of gratitude for having fought in defense of the land which we are proud of, and of the homes which are so dear to us; and when we see the heavy price which you have paid, our feelings are deeply stirred.

We trust that your visit to us will greatly stimulate the interests of the people in the humanitarian work of the Red Cross society, a society to which you and thousands of our brave boys are personally indebted. And we hope that many another patriot will come forward to continue the work in this great conflict which you have seen compelled, unfortunately, to relinquish.

I have great pleasure in extending to you both, the hand of fellowship and welcome on behalf of the Returned Soldiers' bureau, and of this town of Wainwright.

HY. ASSITER, President R. S. B.

CONSTRUCTION OF SIDEWALKS AND CROSSINGS PLANNED

Report for the construction of sidewalks and street crossings was submitted at last night's meeting of council, the report being laid on the table for further consideration.

Crossings proposed included two at the corner of Queen's and Second avenue; one at the corner of Third and Queen's; one at the corner of Second and Dominion and one at the corner of Third and Dominion. These crossings will cost in the neighborhood of \$350.

The proposed construction of sidewalks was for a stretch of about a distance of 300 feet along on Eighth avenue from Queen's to Main for the purpose of providing sidewalk accommodation for the school children.

COURT DECIDES PRATT WILL WAS PROPERLY EXECUTED

When Edwin Watts Pratt died of pneumonia at Wainwright some time ago he left a will directing that his estate of \$25,000 should go to Mrs. Angus McEwan and their children. A number of letters were received by the attorney general's department, alleging that undue influence had been exerted to have deceased sign a favorable will when on his deathbed and the latter was brought up before the court. Judge Crawford in a district court sitting at Wainwright March 2.

It was alleged that a man suffering from pneumonia and on the point of death would be in no fit condition to discuss business matters, and was further pointed out that although deceased was well educated and able to write, that the will was signed with his mouth open, and that he looked badly through, thus necessitating him signing the will with his mark.

In summing up the testimony His Honor Judge Crawford found that the will was properly executed and was proved, and that the costs as taxed be paid out of the estate. W. A. DeL. Wainwright, appeared for the attorney general, and for the National Trust company, public administrators, who were represented by the executor.

NOT RESPONSIBLE FOR DEBTS

The officer commanding the Wainwright platoons of the 151st Battalion wishes it clearly understood that the battalion will not be responsible for any debts, other than those connected with the billeting, that might be incurred by soldiers stationed in this town. Should any exceptions be made where payment of account is guaranteed by the battalion, full authorization for payment will have to be received before the debt is incurred, from the officer in charge.

NEWS BREVETTES PICKED FROM WIRES AT PRESS TIME

By a majority of 235 votes, H. C. Brewster, Liberal candidate, in the by-election for the British Columbia legislature, was elected over Hon. A. C. Flanagan, C. P. Conservative minister of finance.

To fill the depleted ranks of the 151st Battalion in Ontario on account of the war it has been estimated that no fewer than 15,000 male students of fifteen years old and up attending schools would be available this summer for farm work.

Captain L. C. Eckenfelder, a rancher from near Trochu, Alberta, and a French reservist, who went to the front at the beginning of the war when France called in her reserves has been honored by the Cross of the Legion of Honor.

In a special letter written for the Easter season Pope Benedict XV pronounces the war as "the suicide of civilized Europe" as a proposal towards peace he suggests: "Each belligerent should clearly state his desires, but should be ready to make sacrifices of pride and particular interests, thus ending the monstrous conflict in accordance with justice, and re-establish peace advantageous to neither side, but profitable to all, and therefore a just and lasting peace."

An order authorizing permits for importation of potatoes from Canada, subject to new regulations which have been accepted by the Canadian government, is announced by the United States department of agriculture. Canada having agreed that all potatoes offered for export to the United States must be free from injurious diseases and insect pests, imports from this country will be exempted from the requirement of inspection and certification before shipment. They will be subject to the usual inspection on arrival.

Frank Stott, for several years a popular resident of this town, enlisted to-day in the 151st Battalion band.

Local and district residents are asked to note that the L. O. L., No. 1987, will hold a dance and box social in the Gilt Edge Orange Hall on the evening of March 17th. A general invitation is extended.

RUSSIAN MINISTER RECALLED LONDON, March 7.—M. Malinsky, Russian minister to Japan, has been recalled owing to his poor health, says a dispatch received here from Petrograd.

Lieut. Beiderman Leaves Lieut. Ross Now In Charge

To attend the officers' training course which is to be conducted in Edmonton, Lieut. C. R. Beiderman who since the formation of platoons of the 151st Battalion in Wainwright has been the officer commanding, left Wainwright on Monday afternoon for the capital. He will be absent for at least six weeks. Lieut. T. U. Ross, a man of past military experience assumed the local command on Monday and first impressions are that he will become a popular officer with all stationed here. He is a disciplinarian of a calibre that will mean discipline and progress for all under his command.

L.I.D. Donation Controversy Brings Further Epistles; Secretary Writes Letter

"With further reference to the grant made to the Patriotic fund by L. I. D. 422, I wish to clear up one or two illusory conclusions made by the Hope Valley correspondent. We are glad to note that, as suggested in my former letter, a grant 'worthy of the district' is contemplated.

"It has come to my notice that a document largely signed and bearing the names of some of the best supporters of the Patriotic fund, protesting against the action of the council, is in circulation; and further, I am informed that when the action of the council became known many of the most liberal supporters of the fund refused to give when approached by the collectors, or the grounds that they were being forced to give without having a voice in the matter, as is the right of every British subject. It is for that very principle that the Allies are now fighting, and it will be a sorry case if we usurp it in even a slight way at home. I wish to point out that it is not the giving of the pittance, but rather the method of giving that these people object to, and that has done much more harm than good to this fund.

"Now with regard to the legal aspect of the matter, let me point out to our worthy friend,—for I believe him sincere in his loyalty of purpose,—that this grant was made contrary to the statutes of Alberta, and there is no man who has power to transgress or supersede the established statutes. We are not in Germany.

"If the council will propose a more worthy grant, and submit it to the people, they will endorse it, and receive their share of the credit, and we won't need any more kaisers here.

"So much for the Patriotic fund. We have in training here a magnificent body of men, and it may be that we who cannot go to

CAPTAIN JONES

Paymaster of the 151st Battalion whose expected visit to Wainwright is anxiously looked forward to.

Local officials of the Red Cross Society tender thanks to Mr. Chas. Eggert for free cartage in connection with the necessities used at the recent Red Cross tea also to the Wainwright Dairy for the donation of cream and milk.

MEN ENLISTING DAILY IN RANKS OF 151 BATTALION

Recruits are coming into Wainwright almost every day and at the time of going to press no less than 127 men were on roll-call. Of this number 27 are members of the battalion band which is being trained in this town. Every effort will be made to raise at least two platoons in Wainwright in addition to the musical aggregation and when the fact is considered that this town and district has already raised nearly a hundred men who are now on active service, an idea is given as to how well the manhood of Wainwright and district has responded to the call of arms. There are 65 men in a platoon so that 27 men are yet to be signed on to bring the local platoons of the 151st battalion up to full strength. An appeal is made to all the young men in this town who have not yet answered the Empire's call.

EDGERTON PATRIOTIC CONCERT WAS HUGE FINANCIAL SUCCESS

The patriotic concert at Edgerton on Friday evening of last week will go down as one of the most enjoyable and at the same time successful events ever held in Edgerton. The Milne hall was crowded to capacity and the receipts all told, will clear the expenses entailed, by an amount in the neighborhood of \$106. Starting shortly before 9 o'clock, the event did not conclude until 5 o'clock on Saturday morning.

Band selections by the 151st military band, patriotic songs and recitations by local talent, the giving of a forty-minute play and an address by Pte. W. T. Webb of the 151st battalion, all supplemented by a dance following the whole, constituted the program of the evening. It was an event that will be long remembered by all in attendance. A patriotic auction was also held, about \$50 being raised for the patriotic fund as a result.

Arnold Plaxton who endeavored to enlist to-day, failed to pass the eyesight examination and was therefore honorably discharged.

OFFICERS ELECTED AT BIG CONVENTION IN EDMONTON; LOCAL PROGRESS REPORTED

Officers for the Alberta Women's Institute elected at the convention in Edmonton last week are:

President—Miss Isabel Nobel, Daysland, (Acclamation).

First vice president—Mrs. Fleming, Myrna.

Second vice president—Mrs. MacKenzie, Nightingale.

Secretary-treasurer—Mrs. Muldrew, Red Deer, (Acclamation).

Directors—Northern district, Mrs. Rogers, Fort Saskatchewan; Central district, Mrs. Montgomery, Wetaskiwin; Southern district, Mrs. Warren, Milk River.

Mrs. S. R. Bowerman, Wainwright, reported twenty-two members. This branch has established a rest room, had charge of the women's department at the fall fair, and are doing Red Cross work. They have raised about \$145, and have made about 500 articles.

The Endeavor branch at Edgerton, represented by Mrs. Sawyer, has made one parcel of Red Cross supplies every month, and raised \$210.16.

Miss Mary McIsaac, superintendent of institutes, presented the report of the year. During the year the institutes have contributed \$5,850 to the various war funds, and hundreds of packages of clothing and Red Cross supplies have been sent to the Belgian relief and Red Cross societies. Much also has been accomplished in relief work at home. One branch alone contributing over \$600, and others supplying food, fuel and clothing. The institutes are rapidly changing conditions in rural communities and effecting many social and moral reforms.

Economic Commission to Divide Up Work

Staff of Experts Will be Appointed to Consider Problems

The problems which are being attacked by the Dominion Economic and Development Commission, especially those in relation to conditions after the war, are to be looked into by the staff of experts who are being appointed to the commission, and for members on the commission, and for them all to visit the different parts of the country and investigate matters of first hand importance. The commission has been working on a plan which contemplates a division of the work and specific investigation by experts.

It is proposed to outline eight or ten subjects upon which detailed investigation by these experts will be made. Primarily there is the question of immigration after the war, and the problem of not only selection but of location of the immigrants, and assisting them in getting a foothold in the country. Other subjects are agricultural production, transportation, marketing and rural credit.

Duncan Campbell paid a visit to a friend in Glasgow, who took him to dine in a rather lowly restaurant. Duncan's natural caution led him to look around to see that his hat and coat remained in the room where he had left them.

"You are a suspicious chap," said his friend at last. "Who do you think is going to walk in here and steal our coats?"

"Cameas said," replied Duncan, "but I'll put 'em out of the room, and I'll see 'em safe." "You're not a bit of a nut," said his friend, "but I'll put 'em out of the room, and I'll see 'em safe."

Working Young Horses

Great Care Must be Taken Not to Overwork the Growing Animal

Some young horses of good size and strength can safely be worked at two years of age, if they are worked moderately and handled with care and judgment.

The writer has broken and worked two young horses at two years of age, and in both cases they turned out to be splendid mature animals. Both grew and developed right along till they were five years of age, but they were handled with utmost care and fed liberally.

It is not reasonable to expect a two-year-old or a three-year-old horse to do as much work as a mature animal. The young horse must be given a light load at first, and it must not be pushed to its limit during the first working period of its young life. It is best to work the young horse with a strong and reliable older one, giving the younger one advantage over the old. A stay chain should be used on the older horse so that he can start the load and even pull it by himself in hard places. The load for the team should never be excessively heavy.

Another important point in working the young horse is to never work him full days at first, and never crowd him to the point of fatigue, especially on warm days. Do not try to ruin the life and vim out of the young animal at first, but let him grow up and result in a slow or balky animal. You will have to give him vim and spirit for later use.

To finish, by all means, feed the young working animal liberally, and turn to furnish energy for work and material for the building of rich blood, muscle, and bone. Feed him corn, wheat bran, and alfalfa or clover, with a little hay.

A purely Vegetable Pill—The chief ingredients of Pinks' Vegetable Pills are mandarin orange, licorice, and sassafras, and are perfectly harmless in their action. They cleanse and purify the blood, and have a direct effect upon the secretions of the digestive organs. The dyspeptic and all who suffer from indigestion will find in these pills the most effective medicine in concentrated form that has yet been offered to the suffering.

Importing Catalo Herd
"Buffalo" Jones, the man who first crossed the American bison with domestic cattle, is now importing Catalo, a going to locate in Saskatchewan. He will bring to his new location the herd of sixty animals and will be arranging the farm at Portales, N.M., and will make them the nucleus of what promises to be a big business.

Mr. Jones is now on his way to Saskatchewan from Minneapolis. While in that city he spoke of his new plans and said that he had been offered an excellent ranching proposition in the vicinity of Saskatoon and would move his entire herd to their new ground as soon as the weather moderated.

"Buffalo" Jones, besides having bred the cattle, is credited by many of the leading naturalists with having been the States with having saved the bison from extinction. After many years of experimenting he produced a bison which has all the hardness of the native beast and yet preserves the good properties of the domestic animal.—Saskatoon Star.

A gentleman in New Orleans advertised for a man to do chores around the house and the advertisement was answered by a colored man.

"Are you married?" asked the prospective employer.

"Yes, sir, I'm married," replied the applicant, "but my wife is out of a job. Da's why I've got to shift for myself."

"I suppose John is still taking 'kin' easy," said the woman in the train who was carrying a bundle of clothes.

"John has only got to be a little more in life. One that he has to wake up and get up extra to sleep."

Gin Pills
FOR THE KIDNEYS
How They Cure

"I suffered from Kidney Trouble for several years, and tried numerous remedies and doctor prescriptions, but without relief, my case being chronic. After reading about Gin Pills, I knew I was cured. I decided to try Gin Pills. My single pill gave me the greatest relief. I now take four boxes of Gin Pills and find myself completely cured. No more pain, no more weakness, no more tiredness, no more loss of sleep. This is what Gin Pills have done for me."

Canada's Landed Wealth

How the Country is Standing the Strain, and an Idea of the Future

(By W. S. Dinwiddie, in Monetary Times)

Writing in the Monetary Times, I said a year ago that a big crop in 1915 meant in itself more prosperity for Canada. That was my opinion, notwithstanding the fact that we were then assailed by doubts and discords. The outlook was clouded, and but little light ahead. Look, however, at the state of affairs today and a wonderful improvement is apparent. We have been blessed with the bounty of a bumper crop, and we are getting good prices for it and no one would dare to say the general opinion that the splendid measure of prosperity which extended throughout the country is based largely upon the results of the work of the farming community. In itself the big crop spelled good fortune. On top of it, the munition business, the extent of which no one was or could be foretold.

We all appreciate the fact that in agriculture production is essential to our carrying on the war in a big Canadian way. Further, we realize that the big crop of 1915 has grown to be a tremendous factor in our national life. The production of wheat, for example, is being seriously checked with recruiting the big armies that Canada feels it her duty to send to Europe. The significance of it all is that instead of the widespread unemployment of a year ago, there is now a scarcity of labor for most of the year.

For years Mother Graves' Worm Expeller has ranked as the most effective preparation manufactured, and it always maintains its reputation.

An Old New York Grave
The oldest grave in Trinity Churchyard, New York City, so far as can be determined, is that of Richard Church.

The Nova Scotia "Lumber King" says: "I consider MINARD'S LINIMENT the best I have ever used. I have used it for many years, and it has never failed me."

He-Are you superstitious when thirteen persons sit down to the table at the same time?

With so thorough a preparation at hand as Miller's Worm Powders the mother who has children to protect from the ravages of worms is safe and completely careless. A child who is well, healthy, and happy is always unhealthily and will be stunted in its growth. It is a meritorious act to rid the child of worms, especially when it can be done without difficulty.

Draft French Women for Army Work
French women must replace auxiliary soldiers in the army, and they will be drafted to work in the army.

Dear Editor—Will you kindly publish directions for finding a howler?

Well, Roger, you know your left hand and your collar in the other. Slip your neck in the collar and cross the arms over your head, and you have to do is to untangle your hands.

Incense
Incense is the religious gas that exudes from a tree found in British Columbia, from near Berbera to Cape Town.

Patriotism and Education
We admit that there are different sorts of patriotism, and different ways of teaching. We do not want the "Deutschland über Alles" kind, which is not the kind of patriotism we want.

Minard's Liniment Cures Garget in Cows
The empire is securely anchored in the sea from the inextinguishable resources of the sea we are drawing our strength. There is no scound for pessimism. Pestilence is a crime when we confront determined, well informed and highly organized enemies.

Run to One Name
In the village of Watchell, Switzerland, out of a population of 1,044, 20 fewer than 500 persons possess the name of Hurlimann.

Detective—I caught this guy picking pockets in Wall Street.
Dark Sergeant—Nutt, eh? Well, he's a little nut. It is the best I have ever caught for gold nuggets in ash cans.

Rapid Shoemaking
A piece of leather can now be transformed into a pair of boots in thirty-four minutes by the use of the hands of sixty-three people and through fifteen machines.

"Percy, look a bit worried this afternoon."
"Yes, poor fellow. His valet is down sick and Percy doesn't know whether the valet's wearing is the case to go with the suit he's got on."

IS YOUR BLOOD RICH?
Poor Blood is the indirect cause of much winter sickness—it allows chills, influenza, colds and sickness.

IS YOUR BLOOD RICH?
Nourishment alone makes blood—not drugs or liquors—and the nourishment is found in Scott's Emulsion.

IS YOUR BLOOD RICH?
It is the best of all winter sickness—it allows chills, influenza, colds and sickness.

IS YOUR BLOOD RICH?
It is the best of all winter sickness—it allows chills, influenza, colds and sickness.

Lumbago's Misery Ceases, Every Aching Muscle Cured

JUST RUB ON OLD-TIME "NERVILINE"

Not necessary to drug inside!

That awful stiffness that makes you yelp worse than a kicked dog will be cured—surely, certainly, and quickly, too, if you just rub on Nerviline.

Rob Nerviline right into the sore spot, rub lots of it over those tortured muscles, do this and the pain will go. You see, Nerviline is a liniment, and it penetrates through the tissues, it gets right to the cause of the trouble, and it cures it.

You'll get almost instant relief from muscle aches, stiffness, aching joints, lameness or rheumatism by using Rob Nerviline. It's a soothing liniment, and doesn't blister, doesn't burn, or even stain the skin.

It's the most famous cure in the world for Lumbago, Back Strain or Sciatica. It takes away the ache at once and cures the misery quickly.

Now quit complaining—don't suffer another day—Nerviline, that good, soothing, old-time liniment, will liberally rub on your aching muscles. Get busy to rub, the large size family bottle costs only one dollar. Of course, the trial size costs but 50c. Any dealer anywhere can supply Nerviline.

Methods of Detecting Life
Methods Used to Determine Whether Wounded Soldiers are Alive or Dead

Three methods used in the rear of the fighting lines by army surgeons to determine whether a soldier is dead or alive are described in the Medical Record.

The first of these is to drop ether into the ear of the man in question. If this is followed by a reddening of the conjunctiva, it affords proof that the man is still alive.

The second test is to use a small amount of ether in the nostrils. If the ether is inhaled, it is a sign of life.

The third test is to use a small amount of ether in the mouth. If the ether is swallowed, it is a sign of life.

These tests are used in the rear of the fighting lines by army surgeons to determine whether a soldier is dead or alive.

Recruiting in Winnipeg

Popular 100th Battalion, Winnipeg Grenadiers, Now in Process of Formation

Visitors to Winnipeg will be greatly interested to see how a battalion is formed by observing the various stages of the popular 100th Battalion, Winnipeg Grenadiers, now recruiting.

The smartest men of the regiment are engaged in this work, under the charge of capable officers. There are eight recruiting booths, where a great many men are secured and one of the most successful organizations is the "Flying Corps," which works tirelessly through any of the stations, and obtains a great many recruits.

Many will be interested in seeing the excellent quarters allotted to this battalion. They are at the John's Mountain building on Arthur Street, just behind the Ashburn Hall Store.

The quarters are very commodious and are fitted up in most convenient fashion. The kitchen is well equipped, and as the battalion has secured several nice and modern military food served to the men could not be improved upon.

The sleeping quarters are roomy, and are fitted up in most convenient fashion. The kitchen is well equipped, and as the battalion has secured several nice and modern military food served to the men could not be improved upon.

The sleeping quarters are roomy, and are fitted up in most convenient fashion. The kitchen is well equipped, and as the battalion has secured several nice and modern military food served to the men could not be improved upon.

WAINWRIGHT ALTA., WEDNESDAY, MAR. 8th, 1916

VARIETIES OF WHEAT NOT UP TO STANDARD.

Here is some information that might well be heeded by the farmers of this district: It has come to the notice of the Department of Agriculture that salesmen are going through the province selling a variety of wheat variously known as Egyptian King, Seven-Headed, Miracle, Alaska Wonder, Many Headed, Mummy or Corn Wheat. These agents represent it as a superior kind of grain, and in order that farmers may know what they are buying, the department offers the following information.

Experiments in different places have shown that this wheat is below Red Fife in yield and also later in maturing. As to quality, it is wholly inferior to the standard varieties commonly grown in the province. The flour is very dark in color and practically useless for bread-making purposes. The wheat, which has a compound or branching head, is very striking in appearance. This, together with the fact that the kernel is quite large, induces some farmers to purchase and try it as an experiment.

Since experimental farms exist, partially at least, for the purpose of trying out new varieties of grain, the Department of Agriculture feels that no grain grower should allow himself to be imposed upon by salesmen offering this, or any other variety of grain that has not been a success at some experimental station.

PREMIER BORDEN AND WOMEN'S FRANCHISE IN THE PROVINCES.

"The Women's Institute of Alberta and the Women's Industrial association wish to know if your government has declared against women's suffrage. Have we anything to hope from you?" This is the wording of a telegram drafted and presented by Mrs. Arthur Murphy at a luncheon of the Women's Industrial association in Edmonton forwarded to Premier Borden. The telegram is the outcome of the declaration of Sir Robert that although women in individual provinces are being given the vote, these women in these isolated cases will not be allowed to vote on federal questions because as he points out, it would not be right for the women of one province to vote on Dominion issues while those of another province did not have the franchise. It might be necessary he said to introduce a new Dominion franchise law and in that case the question of granting to women the franchise throughout Canada would be given serious attention. Put politics aside. Does that not sound like common sense? Yet knowing this, Mrs. Murphy says: "I am inclined to regard Premier Borden as a man of insight and foresight, and for that reason I think it would be best to find out why he has taken this stand." Well! Well!! Can't Mrs. Arthur Murphy understand the King's English?

I SAW IT IN THE WAINWRIGHT STAR.

Here's a revised version of a popular air. Try it on your piano, or Victrola or just sing it:

Was it of sport or of the war,
Or what they want more taxes for
That Bill came in and talked today?
If so, you probably heard him say—
"I saw it in THE WAINWRIGHT STAR."

When housewives do their daily turn,
Gad o'er the fence while pork chops burn,
If one says so and so's to wed
Just make a bet she also said—
"I saw it in THE WAINWRIGHT STAR."

Is it about the next Fall fair,
Or records made by someone's mare,
That country folks talk of today?
Just listen and you'll hear them say—
"I saw it in THE WAINWRIGHT STAR."

When special sales in town begin
That brings the country shoppers in?
They know what's doing all the while,
Ask how they know, then watch them smile—
"I saw it in THE WAINWRIGHT STAR."

When Buyer answers your want ad,
The best reply you ever had,
Just ask him how he came your way,
It's ten to one that he will say—
"I saw it in THE WAINWRIGHT STAR."

When cross road sages hold debate
On tariff, finance, nation's fate,
Or what the governments have done,
You'll hear it ere they've half begun—
"I saw it in THE WAINWRIGHT STAR."

The Alberta Agricultural Fairs association has recommended the establishment of a Dairy Shortland Herd Book of Canada, qualifications for registering to be based on performance according with recognized milking standards. Among others the following fair dates for 1916 were decided on: Wainwright, September 12-13; Edmonton, September 14; Viking, September 15; Tofield, September 17; Holden, September 18; Chauvin, August 1; Irma, August 2; Calgary, June 29 to July 5, and Edmonton, July 11 to 15.

By a bill introduced at Ottawa by Hon. Dr. Reid, the railway commission is empowered to order any railway to use its equipment to rush grain from any district to nearest elevator and then order another railway to move grain from that elevator to its destination. By this authority grain in congested districts will be rushed out and the assistance of another railway secured to carry it from nearest point where the railways in question cross or have transfer facilities.

Curling is a gentleman's way of acquiring cold feet. It is popular with some men because the resultant chill gives them an excuse for taking something to warm them up, says the Toronto News. Germans do not curl. They have cold feet already.

A German in British Columbia was chased by a bear for more than a mile before he finally escaped. Now he knows how Turkey feels.

BUILDING MATERIAL

See us for best grades of building materials at lowest prices, we have large stocks and can supply in either
FIR OR SPRUCE

LUMBER OF ALL KINDS

We strongly recommend FIR in every case, which is the only satisfactory lumber to use. Cheap native spruce will shrink and twist as long as it is on a building and is not generally used on first class buildings.

IT WILL PAY YOU TO GET OUR PRICES BEFORE BUYING

What about that old floor you are going to repair this winter, we will lay a best grade maple flooring for less money than you can lay rugs or linoleum. Call in and let us prove it to your own satisfaction.

MUSSON & ROSS

'The Busy Corner' Main St.

Heath

The Patriotic concert and dance held recently proved very successful. Bad roads, however, kept quite a few persons away. About fifty-nine dollars was cleared by the concert. The program consisted mostly of patriotic songs and choruses. Included also were sentimental and humorous songs, readings, recitations and violin selections. Mr. Mercier of the Forestry Dept., who was in the district attended and gave a short address along patriotic lines. This proved both instructive and interesting. Mrs. P. J. Bouchier proved an excellent accompanist. The supper which was provided by the ladies, was much enjoyed by all. Several members of the 151st Battalion journeyed down for the occasion. It is reported that at least two recruits were obtained as a result of their efforts during the evening.

Mrs. J. T. Chynoweth spent a few days in Wainwright during the past week.

Mr. and Mrs. Fred Halterman who have been visiting at Mr. Chynoweth's lately have left for their home in Battleford.

Mr. G. Hunt, who spent the winter in Victoria is again in our midst. Mr. Hunt reports that there was a lot of snow in Victoria this winter.

Greenshields

(Too late for last issue)

Mrs. W. A. White is recovering from an attack of grippe. Mrs. R. M. Carl is spending a week with a Wainwright friend.

The February meeting of the W. C. T. U., was held at the home of Mrs. W. A. White when considerable business was transacted and Red Cross work received and distributed.

The Red Cross branch will meet for work on March 8th. S. Lewthwaite of Wainwright was in our vicinity Friday last. The "Ever Ready" class will hold their March meeting at the home of Sealwyne Fountain on Friday, March 3rd. A full attendance is requested.

H. Messier has lost a horse owing to the animal breaking its leg.

YOU BETCHA!

What hol you lads in khaki tan,
We heartily commend you;
You'll do your duty every man
When to the war we send you.

"You Betcha!"
You left your all at country's call,
With patriotic feeling;
To go and fight with all your might,
And send the despot reeling.

"You Betcha Life!"
You forward came and gave your name
As voluntary workers;

Your martial form will put to shame
The slackers and the shirkers,
"You Betcha!"

We look to you to see us through,
And well we know you'll do it;
You'll get the Hun upon the run
And make the Kaiser rue it.

"You Betcha Life!"
You'll throw your life into the strife,
And hardships won't distress you;

Your friends at home, as forth you roam,
Will breathe the prayer "God Bless You!"

"You Betcha!"
So may the God of mortal man
Support and aye defend you
What hol you lads in khaki tan!
We heartily commend you.

"You Betcha Life!"

GOVERNMENT OF THE PROVINCE OF ALBERTA

NOTICE TO STEAM ENGINEERS

NOTICE IS HEREBY GIVEN that examinations will be held at the undesignated places by D. Fraser, duly appointed Inspector of Steam Boilers for the Province of Alberta, Edmonton South, March 4, Orange Hall, Wainwright, March 11, Wainwright hall.

Tuesday, March 15, King Edward hotel, Telford, March 16, Queen Alexandra hotel, at 9 o'clock a.m. for the purpose of giving Engineers and Apprentices an opportunity of qualifying for Certificates under the provisions of "The Boilers Act," 1912.

Persons not already registered in the Province who may desire application forms, can obtain same by applying to the Department, or to the above named inspectors, and such application form must be properly filled out, witnessed, and declared to before a Commissioner or Justice of the Peace before an examination can be granted.

L. C. CHARLESWORTH,
Deputy Minister,
Department of Public Works,
Edmonton, Alberta.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS

The sole land of a family may hold one or more homesteads in Manitoba, Saskatchewan, Alberta, and the Yukon territory, the Dominion Lands Agency or Sub-Agency for the District. Entry by lease may be made at any time. Dominion Lands Agency (not Sub-Agency), or an individual.

Duties—Six months residence upon and cultivation of the land in each of three years. A homestead may be within nine miles of his home on a farm of at least 80 acres, on certain conditions. A homestead house is required except where residence is confirmed in the vicinity.

In certain districts a homestead in good standing was previously a quarter section or more. Price \$10.00 per acre.
Duties—Six months residence in each of three years after earning homestead patent; also 30 acres cultivation. Pre-emption must be held as long as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$10.00 per acre. Duties—Must reside on the land in each of three years, cultivate 30 acres and erect a house worth \$1000.

The area of cultivation is subject to reduction in the case of rough, scrubby or stony land. Life stock may be substituted for cultivation under certain conditions.

W. W. COY, C.M.G.,
Deputy of the Minister of the Interior,
N. B.—Unauthorized publication of this advertisement will not be paid for—4488.

SYNOPSIS OF COAL MINING REGULATIONS

Under the provisions of the Coal Mining Regulations, the Yukon territory, the North-West Territories and the Yukon territory, the Dominion Lands Agency or Sub-Agency for the District. Entry by lease may be made at any time. Dominion Lands Agency (not Sub-Agency), or an individual.

Application for a lease must be made by the applicant to the Agent or Sub-Agent of the District in which the rights applied for are situated. In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be stated out by the applicant himself.

Each application must be accompanied by a fee of \$2, which will be refunded if the rights applied for are not available. But not otherwise. A receipt shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the land with a certificate of title for the full quantity of merchantable coal mined and pay the cost of the same. If the coal mining rights are not being operated, such returns should be furnished.

The lease will include the coal mining rights only, and shall be valid for a term of 40 years, or until 1st June, 1940.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands Agency.

W. W. COY,
Deputy Minister of the Interior,
N. B.—Unauthorized publication of this advertisement will not be paid for—4488.

Sligo

The next meeting of the W. A. will be held on Thursday, March 9th at the home of Mrs. S. E. Oxby. Owing to the cold weather the two previous meetings have not been very well attended, and consequently the delegates' report to the convention held in Calgary has been postponed until the existence of more favorable weather conditions. It is hoped that the report may be given at the meeting to be held at Mrs. Oxby's and all members are requested to attend. The W. A. is now called The United Farm Women of Alta. (U. F. W. A.)

Mrs. John Taylor was taken to the Strathcona Hospital, Edmonton South, on Wednesday March 1st. The exact cause of her illness is not yet known. She was accompanied by Dr. Sorenson of Edmonton and her husband, who returned on Friday. He left Mrs. Taylor comfortable and suffering very little.

Milford James, a small boy of the Giles district, slipped on the ice and broke his left leg in two places. It is now in a plaster Paris cast and to all appearances, is mending nicely.

Mr. Frank Zujic returned recently to the district with his bride.

A stable is being erected at the Giles School, a building which was much needed.

PLEA IS MADE FOR MORE ADEQUATE TRANSPORTATION

CALGARY, Feb. 28.—Evidence of a startling nature was presented to the Dominion grain commission meeting in Calgary, in the council chamber this morning, when many farmers' delegations attended and made a strenuous plea for cars to ship the millions of bushels of wheat which still lie out of doors and unprotected from the destroying elements of spring. Among other farmers present delegates from Macleod, Calgary, Gleichen, Nanton and the districts both east and west from Nanton appeared and stated that the elevators were filled to overflowing, that almost every farmer had thousands of bushels of wheat lying in the open and on the ground, wheat which would be greatly damaged by the thawing weather of spring time, and which would be utterly destroyed if not taken into proper storage before long.

Promises From C.P.R.

Dr. Magill, for the grain commission, stated that that body had done everything in its power to alleviate the condition as speedily as possible. He stated that while the grain commission had no jurisdiction over the railways, it had secured voluntarily from the Canadian Pacific Railway a definite promise that for fifteen days that company would rush cars to those southern Alberta branches where there was a congestion, particularly the Alderville and Macleod lines, and would reduce the maximum of "back haul" rates to Calgary to two cents from any point on those lines.

Also, the grain commission would until May 1 grant free space in the Dominion elevator at Calgary. The car order book system, as previously in vogue would remain, according to Dr. Magill, but branch lines of the railways which had not experienced such a congested condition, and where the grain was already all in store, would not be allowed a similar car for grain shipments during the period of fifteen days, when, it was hoped and believed by the commission, the worst of the condition would have been alleviated in those districts where, according to the farmers' delegations, there was still millions of bushels of wheat lying out of doors.

Greenshields

John Murray and his bride arrived home Saturday evening last.

Miss Minnie White has been on the sick list for a week past. Mrs. R. M. Carl has returned after spending a week in Wainwright.

Alex Murray and family have returned from Ontario where they spent the winter months.

The Red Cross branch of W. C. T. U. will meet at the home of Mrs. W. A. White on Wednesday March 8th.

The "Ever Ready" class had a merry time at the home of Sealwyn Fountain on Friday evening.

W. A. White has purchased a car.

SIGNS OF PEACE IN THE FUTURE OF THE WORLD

THE TALK ABOUT PEACE AND WHAT IT MEANS

The Future of the World for a Century to Come is Just as Much at Stake in Settling the Terms of Peace as It is in Winning the War

The appeals for peace from neutral countries, obviously inspired by German-Americans, German-Swiss or other hyphenated patriots, is an unattractive sign that Germany feels her force is on the decline. That being so, it follows naturally that the sooner she makes or tries to make peace, the better leverage for bargaining she will have. On the other hand, the entente powers are just as anxious for peace as Germany, but it must be borne in mind that the terms of peace are not yet settled.

The subject of peace terms is the force of interest just now. It may be well to glance first at the terms Germany anticipated in case of defeat, when she was in the midst of her elaborate preparations for this war. They were published last autumn in a French magazine, in the form of a signed interview with a prominent German official, whose name was withheld for obvious reasons. The German statesman said that his country had calculated the cost of defeat on the following basis:

The surrender of Metz and Lorraine to France.
The return of Schleswig-Holstein to Denmark.
An indemnity of \$400,000,000 to Russia.

The cession of the Kamerun and Togoland to France.
The cession of German East and Southwest Africa to England.

The return of Heligoland to England.
The transfer of six German ironclads and twelve German cruisers to England.

An indemnity of \$600,000 to Russia.
Boundary rectifications in favor of Russia.

It may now be interesting to glance at the terms of peace in the event of a German victory. They were published shortly after the outbreak of the war, and it was stated later that, owing to the "serious inconveniences" to which the allies had been subjected by the German victory, they were probably made much more exacting when the time came for the Allies to make their demands. The reader will notice the difference between the two sets of terms.

The following represent the demands of a victorious Germany:

The cession of all French overseas empire, amounting to 4,297,325 square miles, with a population of approximately 55,000,000.

The cession of north-eastern France, which includes some of the richest iron districts in the world, and has numerous blast furnaces and iron works.

The demolition of all French forts on that frontier.

The reduction of the French army to 200,000 men from three million.

The signing of a treaty of commerce on terms to be dictated by Germany.

The payment of an indemnity of \$1,000,000,000 to Germany, to occupy the country until war-torn lands had been paid in gold.

Germany to abandon all British and Russian alliances for a period of 25 years.

Those are only a few of the demands from France according to Professor Hasekell, England was to be occupied by German troops and the British overseas dominions were to be absorbed. Belgium was to be absorbed, together with her Congo territory in Africa. Poland was to be re-established as a part of Austria. The Russian Baltic provinces were to be given to Germany.

The German Reich was not self-sufficient, but plunder, and this was strikingly illustrated when Bismarck visited London after the war. He remained almost practically all the time he was being taken to the most precious treasures of the museum or the royal palaces or art galleries. The historical associations of the venerable Tower of London left him unmoved. The exquisite haze that creeps about the river during the long English twilight had no interest for him, but when he had seen everything, he turned himself from a list of abstraction and murmured with a certain "Was for plunder?" ("What a place to plunder!")

That, however, by way of conclusion to consider the terms of peace in the event of a German victory. The victor and victorious entente powers will demand from the beaten German empire the restoration of Belgium, Serbia, Montenegro and Poland, with an indemnity sufficient to pay the cost of their ruined industries for at least twenty years to come. The frontiers of Germany must be re-adjusted to satisfy her legitimate claims for territory. The many who have the misfortune to be her neighbors, Germany must be separated from France by her natural boundary line of the Rhine, and from Russia by an autonomous kingdom of Poland. The menace of the German fleet must be destroyed. The markets of the entente powers must be closed to the German empire until they have hung the Hohenzollerns and their guilty advisers from power. German immigration into the overseas empire must be strictly regulated, if not prohibited altogether, for an indefinite period. The Balkan kingdoms must be reconstituted, as far as practicable, in accordance with nationalities, and also taking into account the attitude of various peoples towards their rulers for centuries past.

Applications should be made to the German empire to give the name, rank and number, with the date of his death. The work of the German empire, which will send a photograph of any grave to a mother, wife or child, and be killed by a shell.

Secret of the Snow

Neither the Scientist or Philosopher Has Been Able to Enter Into Its Secrets

One of the wisdom writers of the Scriptures asks the question, who has entered into the secret of the snow? Since the query was propounded, science has entered into the secret of its crystallization, and the beautiful form of the snowflakes have been made familiar to all. It has been shown to have as beautiful forms as crystallized salts or rock crystals. But the secret of the snow has been little revealed through all the ages of human life.

The Arctic explorers have traversed the vast wastes of snow and ice above the latitudes of perpetual winter, and they have described the illumination of the snow under the influence of the aurora and by the rays of the midnight sun. But the secret of the snow has been little revealed through all the ages of human life.

Up in the lofty Rockies are raging at the present moment snowstorms that cause the wolves to hide in their lairs and the deer to seek cover. The drifts of the blizzard range far from all human habitation, and the drifts fill the crevices and slide down the sides of the lofty mountain peaks. Where is the poet who might enter into the secret of the snow and portray its beauty and its mystery?

With all that has been done to illuminate and to illustrate the snow, the subject still remains one of such varied interest and approach that neither the scientist nor the artist, nor the poet, has been able to enter into its secrets. The following represent the demands of a victorious Germany:

The cession of all French overseas empire, amounting to 4,297,325 square miles, with a population of approximately 55,000,000.

The cession of north-eastern France, which includes some of the richest iron districts in the world, and has numerous blast furnaces and iron works.

The demolition of all French forts on that frontier.

The reduction of the French army to 200,000 men from three million.

The signing of a treaty of commerce on terms to be dictated by Germany.

The payment of an indemnity of \$1,000,000,000 to Germany, to occupy the country until war-torn lands had been paid in gold.

Germany to abandon all British and Russian alliances for a period of 25 years.

Those are only a few of the demands from France according to Professor Hasekell, England was to be occupied by German troops and the British overseas dominions were to be absorbed. Belgium was to be absorbed, together with her Congo territory in Africa. Poland was to be re-established as a part of Austria. The Russian Baltic provinces were to be given to Germany.

The German Reich was not self-sufficient, but plunder, and this was strikingly illustrated when Bismarck visited London after the war. He remained almost practically all the time he was being taken to the most precious treasures of the museum or the royal palaces or art galleries. The historical associations of the venerable Tower of London left him unmoved. The exquisite haze that creeps about the river during the long English twilight had no interest for him, but when he had seen everything, he turned himself from a list of abstraction and murmured with a certain "Was for plunder?" ("What a place to plunder!")

That, however, by way of conclusion to consider the terms of peace in the event of a German victory. The victor and victorious entente powers will demand from the beaten German empire the restoration of Belgium, Serbia, Montenegro and Poland, with an indemnity sufficient to pay the cost of their ruined industries for at least twenty years to come. The frontiers of Germany must be re-adjusted to satisfy her legitimate claims for territory. The many who have the misfortune to be her neighbors, Germany must be separated from France by her natural boundary line of the Rhine, and from Russia by an autonomous kingdom of Poland. DOMINION DAIRY AND COLD STORAGE REPORT

Annual Report of the Work of the Dominion Commission

It is doubtful if any subject, excepting the raising of the Dominion June 1st, has attracted more attention than the report of the Dominion Dairy and Cold Storage Commission. The report, which was published in the Dominion Review for the month of March 21st, is a most interesting and valuable document, and it is well worth a study by all those who are interested in the dairy and cold storage industries.

The report, which was published in the Dominion Review for the month of March 21st, is a most interesting and valuable document, and it is well worth a study by all those who are interested in the dairy and cold storage industries.
